**On the next page:** Instructions that you should read before filling out this form.

**Guide to completing the registration form  
(which is also used when *changing member information*)**

1. The form must be used when registering for SIK as a member. The form must also be used whwn changing information regarding members. Even if there is only one change (e. g. moving to a new address or workplace), please fill in all the fields.
2. It is important that all fields are filled correctly.
3. Some groups pay half a membership contingent. This applies to unemployed, part-time employees, students and first-year apprentices. All other members pay full contingent. However, retired members pay 1/4 contingent.

If you change from being unemployed, part-time employed or a student to being employed full-time, you must pay the full contingent. Here you must use the form to haved the changed conditions registered.

4. It is important thar SIK has registered each member correctly in relation to the contingent payment. That is why it is also important to announce the changes, e. g. when you move to another city, ger a new workplace or go from part-time employment to full-time employment or vice versa.
5. It is important thar when ticking, its is indicated whether you are paid monthly or 14-day salary net. When you have been paid for 14 days you must indicate your next salary payment day aftre registration. This is to inform the contingent administration whether the salary payment takes place in even or odd weeks.
6. A part of the total contingent goes to the local association's own activities, while another part goes to the trade union for joint purposes. The total contingents at any time are listed on SIK's website here: [www.sik.gl](http://www.sik.gl) > *English page* > *The registration form and the SIK departments*

**If you have any doubts about filling in the form, you are very welcome  
to personally contact SIK for instructions.**
